

Payment Information and Fees

KYORIN-FLY outsources the stock order confirmation process and the online payment system to the Bio-Resource Payment (BRP) operated by a non-profit corporation, Science Education Laboratory. An invoice with payment instructions will be issued and emailed after your order is confirmed by KYORIN-Fly and BRP. We provide the online credit card payment system through a cryptographically protected connection Secure Socket Layer, which secures your credit card information. BRP only accepts credit cards from Visa and MasterCard. Your credit card information is not transmitted to KYORIN-FLY. If you have a payment problem, please contact your credit card company.

The packets containing fly stocks for abroad are generally delivered by Express Mail Service (EMS) of Japan Post. Please note that we cannot ship fly stocks by EMS to some countries (China, France, Switzerland, etc.) due to legal regulation. We will ship fly stocks with International Parcel Post or Small Packets via air mail in case we cannot use EMS.
